

LATEX ALLERGY- LATEX-SAFE ENVIRONMENTS

In the interest of decreasing exposure to latex allergens in the school, the Mashpee Public Schools prohibits the use of latex gloves and the presence of latex balloons. Due to the potential for serious latex-related allergic reactions, as well as the choking hazards associated with latex balloons, only non-latex gloves and Mylar balloons will be allowed in the school building or on school grounds.

In addition, the Mashpee Public Schools will refer to “Procedures for Reducing Latex in the School Environment”. See MPS Health Services website for more information.
