

SCHOOL/PARENT RELATIONS GOALS

It is the general goal of the District to foster relationships with parents which encourage cooperation between the home and school in establishing and achieving common educational goals for students.

While parents are individually responsible for their children, the District provides direct services of education for students during the time when they are within the supervision of school personnel. Consistent with these shared responsibilities and as appropriate to the maturity of the student, members of the school staff will consult with parents regarding student progress and achievement, methods to enhance student development, and matters of correction.

Additionally, parental involvement in the schools is encouraged through regular communication with the school Principal and staff, the parent/teacher organizations, the school volunteer program, and other opportunities for participation in school activities and District programs.

NON-CUSTODIAL PARENTS' RIGHTS

As required by Massachusetts General Law, a non-custodial parent may have access to the student record in accordance with law and Dept. of Elementary and Secondary Education Regulations. The school district will follow the law and the regulations developed by the Massachusetts Dept. of Elementary and Secondary Education to standardize the process by which public schools provide student records to parents who do not have physical custody of their children ("non-custodial parents").

As required by law, a non-custodial parent may have access to the student record in accordance with the following provisions.

- (a) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:
 - 1. The parent has been denied legal custody or has been ordered to supervised visitation, based on a threat to the safety of the student and the threat is specifically noted in the order pertaining to custody or supervised visitation, or
 - 2. The parent has been denied visitation, or
 - 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
 - 4. There is an order of a probate and family court judge which prohibits the distribution of student records to the parent.
- (b) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to regulation.
- (c) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.
- (d) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in regulation.
- (e) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.
- (f) Upon receipt of a court order which prohibits the distribution of information pursuant to law, the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

RELATIONS WITH PARENT/BOOSTER ORGANIZATIONS

To foster relationships with parents that encourage the home and school to work together to establish and achieve common educational goals for students, the Superintendent and the professional staff will:

1. Consult with and encourage parents to share in school planning and in setting objectives and evaluating programs.
2. Help parents understand the educational process and their role in promoting it.
3. Provide for parent understanding of school operations.
4. Provide opportunities for parents to be informed of their child's development and the criteria for its measurement.

To accomplish the above and to enhance communications between parents and school officials, the Committee encourages the maintenance of formal parent organizations, including booster organizations, at each school building. For this purpose the Committee will officially recognize parent organizations. These procedures will be observed:

1. Organizations will be officially recognized upon request by the building Principal who will file a copy of the organizational papers with the Superintendent.
2. A vote, open to all parents of children enrolled, will designate the organization to be recognized if more than one organization with the same purpose makes the request.
3. All parent organizations shall obtain 501C3 status and file appropriate paperwork with state authorities and make proof of such status available to school district administration.
4. All parent organizations need to recognize that spending on student activities must comply with federal law relating to equity among student genders.

PUBLIC GIFTS TO THE SCHOOLS

The Superintendent will have authority to accept gifts and offers of equipment for the schools in the name of the Committee when the gift is of educational value. In the case of gifts from industry, business, or special interest groups, no extensive advertising or promotion may be involved in any donation to the schools.

Gifts that would involve changes in school plants or sites will be subject to School Committee approval.

Gifts will automatically become the property of the school system. Any gift of cash, whether or not intended by the donor for a specific purpose, will be accepted by vote of the School Committee, handled as a separate account and expended at the discretion of the Committee, as provided by law.

The Committee directs the Superintendent to assure that an appropriate expression of thanks is given all donors.

PUBLIC'S RIGHT TO KNOW

The School Committee is a public servant, and its meetings and records will be a matter of public information except as such meetings and records pertain to individual personnel and other classified matters.

The School Committee supports the right of the people to know about the programs and services of their schools and will make every effort to disseminate information. All requests for information will be acted on fairly, completely and expeditiously.

All commonly available public record documents of the School District shall be posted on the district's website. The length of time such records shall remain posted on the district website shall be in accordance with the Municipal Record Retention Manual. In addition, the official minutes of the Committee, its written policies and regulations, and its financial records will be open for inspection at the office of the Superintendent by any citizen desiring to examine them during hours when the office is open. No records pertaining to individual students or staff members will be released for inspection by the public or any unauthorized persons by the Superintendent or other persons responsible for the custody of confidential files. The exception to this will be information about an individual employee (or student) that has been authorized in writing for release by the employee (or student, or student's parent).

Each building administrator is authorized to use all means available to keep parents and others in the particular school's community informed about the school's program and activities.

NEWS MEDIA RELATIONS/NEWS RELEASES

Every effort will be made to assist the press and other communications media to obtain complete and adequate coverage of the programs, challenges, planning, and activities of the school system.

All representatives of the media will be given equal access to information about the schools. General releases of interest to the entire community will be made available to all the media simultaneously. There will be no exclusive releases except as media representatives request information on particular programs, plans or problems.

In order that school system publicity is given wide coverage and is coordinated into a common effort and purpose, the following procedures will be followed in giving official information to the news media.

1. The School Committee chair will be the official spokesman for the Committee, except as this duty is delegated to the Superintendent.
2. News releases that are of a system-wide or a sensitive nature or pertain to established Committee policy are the responsibility of the Superintendent.
3. News releases that are of concern to only one school, or to an organization of one school, are the responsibility of the Principal of that particular school. All statements made to the press by other staff members of the particular school must be cleared with the Principal.

While it is impossible to know how news releases will be treated by the press, every possible effort should be made to obtain coverage of school activities that will create and maintain a dignified and professionally responsible image for the school system.

PUBLIC COMPLAINTS

Although no member of the community will be denied the right to bring their complaints to the Committee, they will be referred through the proper administrative channels for solution before investigation or action by the Committee. Exceptions will be made when the complaints concern Committee actions or Committee operations only.

The Committee believes that complaints are best handled and resolved as close to their origin as possible, and that the professional staff should be given every opportunity to consider the issues and attempt to resolve the problem prior to involvement by the Committee. Therefore, the proper channeling of complaints involving instruction, discipline or learning materials will be as follows:

1. Teacher
2. School building administrator
3. Superintendent
4. School Committee

If a complaint, which was presented to the Committee and referred back through the proper channels, is adjusted before it comes back to the School Committee, a report of the disposition of the matter will be made to the Committee and then placed in the official files.

Complaints about school personnel will be investigated fully and fairly. However, before any such complaint is investigated, the complainant must submit his complaint in writing. Anonymous complaints will be disregarded.

Matters referred to the Superintendent and/or School Committee must be in writing and should be specific in terms of the action desired.

The Committee expects the professional staff to receive complaints courteously and to make a proper reply to the complainant.

COMMUNITY USE OF SCHOOL FACILITIES

School facilities will be used according to the regulations and rental fee schedules recommended by the Department of Public Works (DPW).

Permission for the use of facilities must be obtained from the School Principal through the DPW Director.

School Preference

Priority is given to requests for use of school facilities by the School Department.

LEGAL REFS.: M.G.L. 71:71; 71:71B; 272:40A

PUBLIC SOLICITATIONS IN THE SCHOOLS

The School Committee will place limits on commercial activities and fund-raising activities in the schools for the following reasons:

1. The school system should provide students, parents, and employees some measure of protection from exploitation by commercial and charitable fund-raising organizations.
2. The school system should not give the public the impression of generally endorsing or sanctioning commercial and fund-raising activities.
3. Commercial and fund-raising activities may disrupt school routine and cause loss of instructional time.

Following these guiding statements, the superintendent and principals may permit occasional commercial or fund-raising activities related to the objectives of the schools with the following exceptions:

1. No direct solicitation of students or employees may take place without School Committee permission.
2. No general or class distribution of commercial or fund-raising literature may take place without School Committee permission.

For the purposes of this policy, local PTA and PTO groups and groups representing school system employees will be considered "school groups" and will be governed by the Committee's policy on staff solicitations.

ADVERTISING IN THE SCHOOLS

The School Committee may grant permission for advertising of commercial products or services in school buildings or on school property under guidelines or regulations it may approve. Otherwise, no advertising of commercial products or services will be permitted in school buildings or on school property. Publications of the school system will not contain any advertising. However, this will not prevent advertising in student publications that are published by student organizations, subject to administration controls, or the use of commercially-sponsored, free teaching aids if the content is approved by the administration.

Solicitation of sales or use of the name of the school system to promote any product will not be permitted by the Committee.

CROSS REF.: JP, Student Gifts and Solicitations
 KHA, Public Solicitations in the Schools

DISTRIBUTION/POSTING OF PROMOTIONAL LITERATURE

Only when advertising and promotional materials will contribute significantly to the instructional program or general community betterment may they be posted, distributed, or used in the schools.

Distribution of non-curricular materials will be allowed in the schools subject to the requirements that follow unless the material is "unacceptable" as described herewith:

The following materials are unacceptable: so-called "hate" literature that attacks ethnic, religious or any racial group; material that promotes hostility, disorder, or violence; that proselytizes a particular religious or political belief; that is designed for commercial purposes--advertising a product or service for sale or rent; that is libelous, invades the rights of others, or inhibits the functioning of the school or advocates interference with the rights of any individual or with the normal operation of the school; that favors or opposes any political candidate, any bond issue, or any other question to be decided at an election; that is obscene or pornographic as defined by prevailing community standards.

Groups wishing to distribute materials must submit the material to the superintendent for approval a minimum of two business days before the proposed distribution. The superintendent will approve or disapprove the distribution on the basis of the material's acceptability (above) provided that the group agrees to:

1. Distribute the materials at places within the school or on school grounds as designated by the school Principal except that in no event will the materials be distributed in any classroom being occupied by a regularly scheduled class.
2. Distribute the materials one-half hour before school and/or during regularly scheduled lunch period and/or 15 minutes after the close of school.
3. Remove from school premises or grounds all discarded items.
4. Not use students as the agents for distribution of the materials without the written consent of each student's parent or guardian.
5. Not in any way compel or coerce a student to accept any materials; on the other hand, no school official or student will interfere with the distribution of approved materials.

In the event the Superintendent rejects a request for the materials distribution, the decision may be appealed to the Committee.

No teacher will distribute non-curricular materials to students except as they are approved for distribution and distributed as above. The Superintendent will present to any person or persons wishing to distribute non-curricular materials a copy of this policy.

VISITORS TO THE SCHOOLS

The School Committee welcomes parents and guests to visit classrooms to observe and learn about the instructional programs taking place in our schools. Such visits can prove most beneficial in promotion of great school-home cooperation and community understanding of how we carry out the school system's mission and goals.

Visits by parents to several classrooms in a given grade for the purposes of comparing teaching styles to provide a basis for a request for student assignment to a particular teacher are strongly discouraged because the school district's policy of assigning a student to a particular class is the sole responsibility of the building principal in consultation with the staff of that school.

The following guidelines to classroom and school visits should be followed:

1. Parental requests for classroom visitations will be welcomed as long as the educational process is not disrupted. To this end, such requests must be made at least forty-eight hours in advance to allow the proper arrangements to be made.
2. The building principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. For security purposes it is mandatory that all visitors report to the principal's office upon entering and leaving the building and sign a visitor log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the Principal's office. All visitors will wear the visitor's ID badge when in the building.
4. Under ordinary circumstances classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
5. Any student who wishes to have a guest in school **MUST** ask permission of one of the administrative staff **24 HOURS** in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. Any guest who fails to comply with student regulations will be asked to leave the school building and grounds immediately.

RELATIONS WITH POLICE AUTHORITIES

Cooperation with law enforcement agencies is essential for the protection of students, for maintaining a safe environment in the District schools, and for safeguarding all school property.

Relationships between the schools and officials of law enforcement agencies in investigative matters concerning pupils will take into consideration the respective roles of the schools and law enforcement agencies in assisting and protecting the interests of the community, and ensuring the rights of all concerned.

The School Committee also recognizes the potential enrichment that law enforcement agencies can make in the educational program.

Efforts should be made to develop and maintain a healthy attitude toward law enforcement agencies and personnel to promote better understanding and communication.

RELATIONS WITH LOCAL GOVERNMENTAL AUTHORITIES

The School Committee and its administrative officers welcome all who seek to serve the residents of the community and will participate with them in the planning and execution of such projects as will be mutually beneficial for students.

It is School Committee policy that administration informs elected and appointed officials of the local and county government of the desire to work cooperatively for improved services.
